TLIP enhancements

Effective July 18, 2002 the new Time Limit Information/Previous Aid (TLIP) screen has some new features:

- An Extension History pop-up screen
- New client alerts

An Extension History pop-up screen has been added to display the current and any previous extensions to the 60-month time limit that a client has received. By placing the cursor next to the EXT CODES area for an adult, you can enter an "X", press *ENTER*, and the Extension History pop-up screen will appear for that client. The pop-up screen will also include the case number attached to the extension, the client number and extension months used for that individual.

The case alerts, *EXTENSION ADDED* and *EXTENSION END DATE CHANGED*, are now client alerts. This will allow Case Management System (CMS) users to see alerts for individual clients when an extension has been added or when the end date has changed.

The Total Used and AFDC month fields on the TLIP screen will now be used to calculate the LT (Long Term) code on the WORK screen. When the total number of months reaches 30, the LT code is automatically entered on the WORK screen in the W2 WK field.

For policy questions, please contact Policy and Program Development at DPAPOLICY@health.state.ak.us. For any system-related questions, please contact the DPA EIS Helpdesk at EISHELP@health.state.ak.us.
